

报告题目: Research, the Faculty of Engineering, and My Academic Role

报 告 人: Prof Steve Greedy «University of Nottingham, Faculty of Engineering »

报告时间: 2025-6-27 15:00

报告地点: 机电工程学院 A507

主办单位: 中国矿业大学机电工程学院

报告摘要:

The presentation will highlight the research activities within the Faculty of Engineering at the University of Nottingham, UK and his past and current research activities that fall under the general topic of practical electromagnetic engineering with reference to applications spanning multiple scales and frequency ranges. He will also present the Faculty of Engineering and the programs it offers.

报告人介绍:

Stephen Greedy was born in Cardiff, U.K. He received the MEng and PhD degrees in electrical and electronic engineering from the University of Nottingham, UK, in 1998 and 2002 respectively.

In 2003 he was appointed as a Senior Experimental Officer within the George Green Institute for Electromagnetics, subsequently progressed to associate professor and in 2025 became a full professor in the Department of Electrical and Electronic Engineering. His teaching has a focus on electronic and computer engineering and he undertakes research in the field of electromagnetic engineering as a member of the George Green Institute for Electromagnetics Research. His research interests are wide ranging, encompassing the development of simulations tools and experimental applied to a number of industrial applications that include communications, transportation and aerospace.
